

Kiwanis Club of Owen Sound Newsletter November 28, 2002

Birthdays

Apparently none anyone would admit to

Anniversaries

Bernice and Hermann Nov 30

Those who received applause were Doug, Gord, Gary, Bill, Ted Horton, Ian and Craig. Better late than never.

Fines included Ian for invoking the MTO for his tardiness.

Bill confessed to winning a pie courtesy of Al and Ann for his canvassing.

Gary was fined for the portrait of his father and he in the Kiwanian magazine.

The Speaker was Bill Loney of KeppelCroft Farm, at Big Bay, Ontario. Bill and his wife Dawn have turned their farm into a series of unique gardens together with a nursery of plants for sale. He and Steve Irvine have built an large scale astronomical observatory in the old manner, akin to Stonehenge. They have created specialty sundials and have further plans to expand the sites. The link to all of the work was the bonds of friendship forged between those working on these projects, and the willingness of others to pitch in for an interesting experience. "Keppelcroft" on a search will bring you to his website and Steve's for the henge.

Coming soon

- Christmas Social
at Highland
Manor, December
5, 2002

Trees will be starting so please sign up for the times you can volunteer.

For the next board meeting would committee chairs please submit their budgets.
