### Whispering Pines Update...

The Committee met at Georgian College in Barrie with a delegation of four Georgian staff to discuss what involvement they would be interested in with Whispering Pines. They have a great resort management program that we are hoping will become involved with the ongoing marketing and staffing of our facility. They also like to get their students involved in feasibility studies and things related to running and developing resorts etc. Our end goal would be to staff our camp with some of their students who, upon graduation, might take over the management position as a full time position, albeit it seasonal employment. This would certainly help to remedy the problem of getting a new manager every couple of years. They seemed very receptive to our goals and felt it would be a perfect fit. They will be getting back to us at the beginning of May with a proposal for us to discuss. The Committee left the meeting very excited that this could develop into something very positive.

### Volunteers Needed for Kiwanis Music Festival

There is a Festival of Stars for bands and choirs on the 24<sup>th</sup> at OSCVI and a Festival of Stars for individuals and small groups on Tuesday April 25<sup>th</sup> at the Alliance Church. We need 5 Kiwanian's to assist at the door for these concerts. Please let Kim James know if you are available.

### Howard Hindman

As many of you know Howard fell at one of our meetings recently. He is back at Central Place and is doing as well as can be expected. He has been getting out for a ride almost every day, which he always enjoys. His hip seems to be healing quite nicely and he is working to get his mobility back.
